

HEALTH FACILITIES

SAM Global University is committed to providing a safe, healthy and supportive environment for the overall well-being of its students, faculty members and staff. The University recognizes that good health is an essential component of effective learning, teaching and professional development.

To support the health and well-being of the University community, the University provides and facilitates the following health-related facilities and services:

1. Medical Assistance

The University facilitates access to basic medical assistance for students, faculty and staff on campus. Necessary first-aid support is made available for minor injuries, illness and other immediate medical requirements.

2. First-Aid Facility

First-aid boxes are made available at identified locations within the University campus. These facilities are intended to provide immediate assistance in case of minor injuries or medical emergencies.

3. Medical Consultation

Students and staff may avail themselves of medical consultation/support through the University's designated medical arrangements. Where required, individuals are referred to appropriate hospitals or qualified medical professionals for further examination and treatment.

4. Emergency Medical Support

The University has provisions for responding to medical emergencies. In case of serious illness, injury or other emergencies, appropriate medical assistance and referral to nearby healthcare facilities are facilitated.

5. Health and Hygiene

The University places due emphasis on maintaining cleanliness and hygienic conditions across the campus. Regular sanitation and cleanliness measures are undertaken in academic buildings, administrative areas, common spaces and other facilities.

6. Safe Drinking Water

Safe and potable drinking water facilities are provided at appropriate locations across the campus for students, faculty and staff.

7. Sanitation Facilities

Adequate sanitation and washroom facilities are provided for students and employees. The University undertakes regular cleaning and maintenance to promote hygienic and healthy campus conditions.

8. Mental Health and Counselling Support

The University recognizes the importance of mental health and emotional well-being. Students may be provided access to counselling and guidance services to address academic stress, personal concerns, adjustment issues and other challenges affecting their well-being.

9. Health Awareness Programmes

The University may organize health awareness and sensitization programmes on topics such as:

- Personal hygiene and sanitation;
- Nutrition and healthy lifestyle;
- Mental health and stress management;
- Preventive healthcare;
- Substance-abuse awareness;
- Communicable disease prevention;
- First aid and emergency preparedness; and
- Other health-related issues of relevance to students and staff.

10. Health Check-up and Screening

The University may organize periodic health check-up camps, medical screening programmes and awareness drives in collaboration with qualified medical professionals, hospitals and healthcare organizations.

11. Sports and Physical Well-being

The University encourages students and employees to participate in sports, physical activities and recreational programmes as part of a healthy and active lifestyle. Appropriate sports and recreational facilities are made available as per the University's infrastructure and resources.
